

VASANTH KUMAR

SOC Analyst | Cybersecurity Analyst

☎ +91 9786183898 | ✉ iamvasanth2k4@gmail.com | 🌐 GitHub | 🔗 LinkedIn | 📁 Portfolio

PROFILE

Cybersecurity & Digital Forensics graduate with hands-on experience in SOC operations, alert triage, incident response, threat hunting, AI security, and security automation. Built practical projects covering SOC investigation, agentic AI security, RAG security testing, identity-threat response, and digital forensics. Seeking an entry-level SOC Analyst, Cybersecurity Analyst, or AI Security role.

TECHNICAL SKILLS

Security Operations & Response

Splunk | Wazuh | Sysmon | EDR | Sigma Rules | IAM | Log & IOC Analysis | Alert Triage | Incident Response | Threat Hunting | MITRE ATT&CK

GenAI & AI Security

GenAI | LLM | RAG | Agentic AI | MCP | Prompt Injection Defense | MITRE ATLAS | OWASP Top 10 for LLMs

Security Automation & Scripting

Python | PowerShell | Bash (Basic) | SOAR Concepts | n8n Workflows | REST APIs | Webhooks

Network Security

OSI Model | TCP/IP | DNS | Common Ports & Protocols | Firewalls | IDS/IPS | Wireshark | Suricata

Vulnerability Assessment & Penetration Testing (VAPT)

Nmap | Nessus | Burp Suite | Metasploit Framework | Hashcat

Digital Forensics & Incident Response (DFIR)

Autopsy | FTK Imager | Volatility | YARA | Timeline Analysis

Cloud & Systems

Azure Fundamentals | AWS Fundamentals | Linux | Windows | Docker | CI/CD | Git/GitHub

SECURITY PROJECTS

AegisFlow — SOC Investigation & Response Automation

Technologies: Python | FastAPI | React/TypeScript | SQLite | n8n | RAG | MCP | Groq API | VirusTotal API | Docker

- Built an 11-phase SOC workflow covering alert ingestion, IOC enrichment, AI triage, investigation, approval, and simulated response.
- Developed a 7-page React dashboard and validated the backend through 110 automated tests.

AgentShield — Agentic AI Security Gateway

Technologies: Next.js | TypeScript | Cloudflare Workers/D1 | Drizzle ORM | Groq API | OWASP Agentic AI Top 10 | MITRE ATLAS

- Built an AI security gateway that returns ALLOW, REVIEW, or BLOCK decisions for prompts and proposed tool actions.
- Validated prompt injection, sensitive-data exposure, RBAC, and tool-misuse controls through 18 security test scenarios.

RAGExploit — AI & RAG Security Scanner

Technologies: Python | LLM/RAG Security | OWASP Top 10 for LLM Applications | MITRE ATLAS

- Designed five security-testing modules for document poisoning, indirect prompt injection, unauthorized retrieval, sensitive-data leakage, and configuration risks.
- Generated risk-rated findings with supporting evidence and remediation guidance for detected weaknesses.

iTRAP — Identity Threat Response Automation Platform

Technologies: Python | Streamlit | SQLite | Pandas | Plotly | Sysmon | Splunk/Wazuh | VirusTotal/AbuseIPDB APIs | MITRE ATT&CK

- Implemented 11 detection rules for brute force, suspicious PowerShell, account changes, privileged logons, and identity threats.
- Built alert correlation, 0-100 risk scoring, MITRE ATT&CK mapping, and simulated containment workflows.

DFIR Copilot — AI-Assisted Digital Forensics

Technologies: Python | PySide6 | python-evtx | YARA-X | SHA-256 | Groq API | ReportLab | Windows Forensics

- Built a Windows forensic workbench for SHA-256 evidence verification, EVTX parsing, YARA-X scanning, and timeline reconstruction.
- Generated investigation results in PDF, HTML, and JSON formats with evidence-cited AI assistance and chain-of-custody records.

HANDS-ON EXPERIENCE & SECURITY RESEARCH

- Resolved security alerts across 20+ hands-on SOC labs covering alert triage, log analysis, threat hunting, and incident response workflows.
- Practiced network, endpoint, and web security testing in authorized lab environments.
- Conducted digital-forensic investigations involving evidence acquisition, artifact analysis, timeline reconstruction, and evidence handling.
- Built and tested security-automation and AI-security workflows across SOC, DFIR, threat detection, and security research scenarios.

EDUCATION

Master of Computer Applications (MCA) | Pursuing | 2026-2028

Sri Sai Bharath College of Arts & Science | Madurai Kamaraj University

B.Sc. Cybersecurity & Digital Forensics | 2023-2026

Rev. Jacob Memorial Christian College | Madurai Kamaraj University

CERTIFICATIONS & TRAINING

- Cisco Junior Cybersecurity Career Path
- Google Security Operations
- Microsoft Student SOC Program Foundations
- TryHackMe Hands-on SOC Labs - Alert Triage, Threat Hunting & Incident Response
