

VASANTH KUMAR

SOC Analyst | Security Analyst

☎ +91 9786183898 | ✉ iamvasanth2k4@gmail.com | 🐙 GitHub | in LinkedIn | 🌐 Portfolio

SUMMARY

Cybersecurity graduate with hands-on experience across SOC operations, SIEM monitoring, alert triage, threat hunting, and incident response, built through practical home-lab work and independent security projects. Skilled in log analysis, IOC analysis, and Python-based security automation, with a strong interest in growing as an entry-level SOC Analyst, Security Analyst, or Cybersecurity Analyst.

CORE COMPETENCIES

SOC Operations | SIEM Monitoring | Alert Triage | Incident Response | Ticket Management | Threat Hunting | Log Analysis | IOC Analysis
Vulnerability Assessment | Identity & Access Management (IAM)

TECHNICAL SKILLS

SIEM & Detection

Splunk | Microsoft Sentinel | Wazuh | Sysmon | Active Directory | Windows Event Logs | EDR Concepts

Networking & Protocols

TCP/IP | OSI Model | DNS | DHCP | HTTP/HTTPS | SMTP | VPN | Common Network Ports | Network Troubleshooting

Cybersecurity Tools

Wireshark | VirusTotal | CyberChef | Nmap | Burp Suite | Metasploit Framework | Nikto | Nessus | Hashcat | John the Ripper

Programming & Scripting

Python | PowerShell Scripting | Bash Scripting (Basic)

Digital Forensics

Autopsy | FTK Imager | Evidence Acquisition | File System Analysis

AI & Automation

LLM Integration | Prompt Engineering | REST APIs | API Integration | API Key Management | n8n

Frameworks

MITRE ATT&CK | Cyber Kill Chain | NIST Cybersecurity Framework (CSF) | OWASP Top 10

Additional Tools

Microsoft Azure | Git | GitHub | Visual Studio Code | Jira

CYBERSECURITY PROJECTS

Enterprise Phishing Email Triage Lab | GitHub

Technologies: VirusTotal | CyberChef | Email Header Analyzer | SMTP Header Analysis

- > Investigated suspicious emails to extract and verify actionable IOCs using VirusTotal and CyberChef.
- > Documented phishing findings in a structured format to support faster SOC-style triage decisions.

SOC Incident Investigation & Alert Triage Lab | GitHub

Technologies: Splunk | Sysmon | Windows Event Logs | MITRE ATT&CK

- > Correlated Sysmon and Windows Event Logs in Splunk to investigate simulated security incidents.
- > Mapped alerts to MITRE ATT&CK techniques to produce structured triage and IOC documentation.

Threat Hunting Dashboard | GitHub

Technologies: Python | Flask | Splunk | VirusTotal API | GeoIP API | MITRE ATT&CK

- > Built a Flask-based dashboard integrating Splunk with VirusTotal and GeoIP APIs.
- > Automated IOC enrichment to improve analyst visibility into emerging threats.

AI-Driven SOC Monitoring Dashboard | GitHub

Technologies: Python | Streamlit | Scapy | Groq AI API | LLM | SQLite

- > Designed a Streamlit-based SOC dashboard with Scapy-driven live traffic capture.
- > Applied LLM-based analysis via the Groq API to accelerate incident response decisions.

Real-Time Threat Detection & Auto-Blocking System | GitHub

Technologies: Python | Groq AI API | Windows Firewall | PowerShell | psutil

- > Engineered a real-time detection system to identify and flag suspicious network activity.
- > Automated Windows Firewall blocking of malicious IPs and generated real-time security alerts.

EXPERIENCE

Cybersecurity Home Lab

- > Performed SOC monitoring, SIEM monitoring, and alert triage using Splunk, Wazuh, and Sysmon to support threat hunting.
- > Conducted log analysis, IOC analysis, vulnerability assessment, and incident investigation on simulated targets.
- > Automated repetitive security tasks with Python and PowerShell scripting to improve operational efficiency.

Professional Internship

Full Stack Development Intern | Livestream Technology, Coimbatore | 30 Days

- > Assisted in developing and testing web application features following software development best practices.
- > Collaborated with the team on debugging, documentation, and application maintenance tasks.

EDUCATION

Master of Computer Applications (MCA) | 2026-2028

Sri Sai Bharath College of Arts & Science

B.Sc. Cybersecurity & Digital Forensics | 2023-2026

Rev. Jacob Memorial Christian College

CERTIFICATIONS

- > TryHackMe – SOC Level 1 Path (Completed)
- > TryHackMe – Jr. Penetration Tester Path (Completed)
- > Microsoft Student SOC Program Foundations (Completed)
