

VASANTH KUMAR

SOC Analyst | Cybersecurity Analyst

+91 9786183898 | iamvasanth2k4@gmail.com | GitHub | LinkedIn | Portfolio

SUMMARY

Cybersecurity graduate with hands-on SOC lab and project experience in SIEM monitoring, alert triage, threat hunting, and incident response. Skilled in Splunk, Sysmon, IOC analysis, MITRE ATT&CK, and Python automation, with practical exposure to building security monitoring and threat detection solutions. Seeking an entry-level SOC Analyst or Security Analyst role.

CORE COMPETENCIES

SOC Operations | SIEM Monitoring | Alert Triage | Log Analysis | IOC Analysis | Identity & Access Management (IAM) | Threat Hunting | Incident Response | Incident Escalation | Ticketing | Vulnerability Assessment

TECHNICAL SKILLS

SIEM & Detection

Splunk | Microsoft Sentinel | Wazuh | Sysmon | Microsoft Defender for Endpoint | Windows Event Logs | EDR Concepts

Identity & Access

Active Directory | Identity & Access Management (IAM)

Networking & Protocols

TCP/IP | OSI Model | DNS | DHCP | HTTP/HTTPS | SMTP | VPN | Common Network Ports | Network Troubleshooting

Cybersecurity Tools

Wireshark | VirusTotal | CyberChef | Nmap | Burp Suite | Metasploit Framework | Nikto | Nessus | Hashcat | John the Ripper

Programming & Scripting

Python | PowerShell | Bash (Basic)

Digital Forensics

Autopsy | FTK Imager | Evidence Acquisition | File System Analysis

Security Automation & AI

Python Automation | PowerShell Automation | LLM Integration | REST API Integration | Microsoft Copilot for Security | n8n Workflows

Frameworks

MITRE ATT&CK | Cyber Kill Chain | NIST Cybersecurity Framework (CSF) | OWASP Top 10

Additional Tools

Microsoft Azure | ServiceNow | Jira | Git | GitHub

CYBERSECURITY PROJECTS

SOC Incident Investigation & Alert Triage Lab | GitHub

Technologies: Splunk | Sysmon | Windows Event Logs | MITRE ATT&CK

- > Investigated security alerts using Splunk, Sysmon, and Windows Event Logs.
- > Performed alert triage, IOC analysis, and MITRE ATT&CK mapping.

Phishing Email Triage Lab | GitHub

Technologies: VirusTotal | CyberChef | Email Header Analysis | IOC Analysis

- > Investigated phishing emails using VirusTotal and CyberChef.
- > Documented IOC findings through a structured SOC triage workflow.

Threat Hunting Dashboard | GitHub

Technologies: Python | Flask | Splunk | VirusTotal API | GeolIP API | MITRE ATT&CK

- > Built a Flask-based threat hunting dashboard integrating Splunk and threat intelligence APIs.
- > Automated IOC enrichment for faster threat analysis.

AI-Driven SOC Monitoring Dashboard | GitHub

Technologies: Python | Streamlit | Scapy | Groq AI API | SQLite

- > Developed a Streamlit-based SOC monitoring dashboard with live traffic capture.
- > Integrated AI-assisted threat analysis for security investigations.

Real-Time Threat Detection & Auto-Blocking System | GitHub

Technologies: Python | Windows Firewall | PowerShell | Groq AI API

- > Developed a real-time threat detection and alerting system.
- > Automated Windows Firewall blocking for suspicious IPs.

EXPERIENCE

Cybersecurity Home Lab

- > Performed SIEM monitoring, alert triage, log/IOC analysis, and threat hunting using Splunk, Wazuh, and Sysmon.
- > Practiced incident investigation and security automation using Python and PowerShell.

Penetration Testing Lab

- > Conducted reconnaissance, enumeration, vulnerability assessment, and controlled exploitation on authorized lab targets using Nmap, Nessus, Burp Suite, and Metasploit Framework.

Digital Forensics Practice

- > Practiced evidence acquisition, preservation, analysis, and documentation using FTK Imager and Autopsy.

EDUCATION

Master of Computer Applications (MCA) | (Pursuing) 2026–2028

Sri Sai Bharath College of Arts & Science | Madurai Kamaraj University

B.Sc. Cybersecurity & Digital Forensics 2023–2026

Rev. Jacob Memorial Christian College | Madurai Kamaraj University

CERTIFICATIONS & TRAINING

- > Cisco Junior Cybersecurity Career Path
- > Google Security Operations
- > Microsoft Student SOC Program Foundations
- > TryHackMe – SOC Level 1 Path
